

HELIX

Inovative and efficient

The Helix is simple to use, versatile and requires low maintenance.

- Very long running times.
- Suitable for pre-cutting and for applications with lower demands on surface finish.
- Each knife is mounted in a small pocket that protects the sides from wearing.
- Interchangeable knives – no grinding necessary.
- Pressurization can be done from both sides of the tool.
- Cost-effective.
- Developed and produced by LSAB in Sweden.
