

ENVIRONMENTAL & QUALITY POLICY

CUTTING EXCELLENCE

We offer tool solutions with focus on our customers profitability. In our product portfolio we offer education, process optimization and service such as regrinding of tools. Our customers are mainly within the woodworking industry in Sweden and the rest of the world.

In this policy we have set the overall guidelines for the environmental and quality work within the company.

OUR QUALITY WORK

Our customers shall be satisfied with our work: we shall deliver products in the right time, to the right place and with promised and expected quality. We shall be open for our customers' requests and strive to offer technical solutions tailored to each customer's specific needs.

OUR ENVIRONMENTAL WORK - FOR A SUSTAINABLE DEVELOPMENT

We shall protect the environment by less affect through:

- Yearly decrease our energy consumption and Co2-emissions.
- Decrease our environmental impact from our chemicals in the production.

In all parts of the company's activities, we shall strive to reduce the impact on the environmental as far as possible, without giving up quality of economic issues.

We shall work with continuous improvements, reduce our internal and external environmental impact, and make sure that laws and regulations are followed properly.
